Onifade Ololade Favour

Software Engineer | Fullstack Developer | AI | Frontend Developer@Medicx | Backend Developer
Lagos State, Nigeria

Experience

FlyRank AI

Front-end AI Engineer

June 2026 - Present (4 months)

Lagos State, Nigeria

As an AI intern at FlyRank, I engage in hands-on, evidence-backed projects focused on building and deploying practical AI solutions. Through rigorous assignments and capstone development, I develop skills in AI fluency, model application, and technical implementation while learning alongside lead mentors and portfolio partners in the AI space.

Babcock University, Ilishan-Remo, Nigeria

Administrative Executive

December 2025 - Present (10 months)

Ogun State, Nigeria

Managed day-to-day administrative activities, coordinated visitors, and assisted with arrangements for individuals meeting with the Vice Chancellor (VC); prepared and entered official memos and dispatch-related administrative tasks.

Provided IT and technical support, troubleshooting and resolving laptop and software issues.

Assisted staff in using digital tools and AI technologies to improve productivity.

HSC CONSULT

Back End Developer

October 2025 - Present (1 year)

Nigeria

Implemented a robust backend system supporting a cybersecurity training platform serving 100+ students, using Node.js, Express.js, and MongoDB. Developed secure RESTful APIs, integrated Monnify and Paystack payment gateways, implemented webhook verification, authentication, input validation, rate limiting, and backend security best practices to deliver reliable and scalable web applications.

Medicx

Senior Frontend Developer

July 2025 - Present (1 year 3 months)

Lead the frontend development of a healthcare web platform using React.js, JavaScript, and

Tailwind CSS.

Implemented advanced image optimization techniques using Cloudinary, reducing image load

time by up to 10× and significantly improving user experience and page performance.

Enforced best practices in component reusability, performance optimization, and version

control.

Tech Stack: React.js, JavaScript, Tailwind CSS, Cloudinary, Formspree, HubSpot, Git

MeetYourVA

Senior Virtual Assistant

February 2026 - August 2026 (7 months)

United States

Providing virtual assistance, digital operations support, AI-assisted workflow automation, and software solutions. Proficient in AI tools, coding, content management, social media strategy, and administrative coordination, helping organizations improve efficiency, optimize processes, and achieve their goals through technology and innovation.

Loan & Financial Services Startup Creditpay

Full Stack Engineer

January 2025 - 2026 (1 year)

Refactored and migrated the backend codebase from JavaScript to TypeScript.

Ghreatness

1 year 1 month

Virtual Assistant

November 2024 - November 2025 (1 year 1 month)

Lagos

Frontend Developer

January 2025 - June 2025 (6 months)

Lagos State, Nigeria

ANETTCOM TECHNOLOGIES

Fullstack Developer

February 2025 - September 2025 (8 months)

Osun State, Nigeria

Developed and maintained responsive, user-focused websites and full-stack web applications using modern technologies. Built scalable frontend and backend solutions while helping businesses establish and strengthen their online presence. Optimized websites for performance, SEO, and user experience to improve visibility and engagement. Trained and mentored numerous students in web development, equipping them with practical skills in HTML, CSS, JavaScript, React, Node.js, databases, and modern development workflows. Contributed to project planning, problem-solving, and continuous improvement across multiple web development projects.

Unixy (Startup Company)

Virtual Assistant

October 2024 - June 2025 (9 months)

Provided virtual administrative support, managed communication, and handled task coordination.

Pexcel Global Services
